PROFESSIONAL SUMMARY

Final-year B.Tech student specializing in Artificial Intelligence and Data Science with strong foundations in Python, C programming, Data Structures, and Machine Learning concepts. NPTEL certified in Machine Learning (IIT Madras). Skilled in developing structured applications using Object-Oriented Programming and analytical problem-solving. Seeking an entry-level Software Developer or AI/ML Internship role.

TECHNICAL SKILLS

- Programming Languages: Python, C
- Machine Learning: Supervised Learning, Model Evaluation, Data Preprocessing
- Core Concepts: Data Structures, Algorithms, Object-Oriented Programming (OOP), File Handling, Pointers
- Tools & Environment: VS Code, Basic Git, Windows OS

PROJECTS

- **Blackjack Card Game – Python:** Developed command-line Blackjack game using OOP principles, designed classes (Card, Deck, Hand, Chips), implemented betting logic, and used random module for card shuffling.
- **Record Management System – C:** Built structured record management system using C, implemented structures, pointers, file handling, and optimized memory and debugging.

CERTIFICATIONS

Introduction to Machine Learning – NPTEL (IIT Madras), Oct 2025. Completed 12-week certification funded by Ministry of Education, Govt. of India.

EDUCATION

Bachelor of Technology (B.Tech) – Artificial Intelligence and Data Science (Final Year, Currently Pursuing).

Global Institute of Technology and Management, Gurugram.

Affiliated to Gurugram University.

STRENGTHS

- Strong analytical and logical problem-solving skills
- Passionate about Artificial Intelligence and Data Science
- Quick learner with adaptability to new technologies
- Effective team collaborator with good communication skills
